

## Hand disinfection

# ASEPTOMAN® med

## Alcoholic hand disinfectant

- norovirus effective in 30 sec.
- especially gentle to the skin
- fast and comprehensively effective

### Product description

Alcoholic hand disinfectant to be rubbed into the skin. ASEPTOMAN med is especially gentle to the skin due to its low alcohol content, yet it still has a broad efficacy spectrum and is therefore the ideal product for the daily routine. ASEPTOMAN med is noro-, rota- and adenovirus effective within the requirements of hygienic hand disinfection.

ASEPTOMAN med fulfils the requirements for hand disinfection during noro-, rota and adenovirus breakouts. It is perfume-free and free from cumulative long-term agents, which can accumulate on the skin and cause irritations. Additionally, ASEPTOMAN med contains valuable re-fattening and caring ingredients to prevent drying out of the skin.

### Range of application

Hygienic and surgical hand disinfection.

### Spectrum of activity

- bactericidal
- tuberculocidal (M. terrae)
- mycobactericidal (M. avium and M. terrae)
- yeasticidal
- virus inactivating (noroviruses, adenoviruses as well as all enveloped viruses incl. HBV, HIV, HCV)

Efficacy and test methods			15 sec.	30 sec.	2 min.
application recommendation for hygienic hand disinfection*	EN 1500			•
