

DESCO VITAL GEL

vitalising gel for application on skin

- ✓ contains refatting agents
- ✓ without colourants and preserving agents

- vitalising and circulation-enhancing for skin and tissue
- contains high-quality essences from medicinal herbs
- excellent skin sensation due to optimized refatting ingredients

PRODUCT PROPERTIES

DESCO VITAL GEL is a hydrogel with valuable essences of medicinal herbs from spruce needles, eucalyptus, juniper and thyme for the stimulation of the blood flow of the skin and tissue. **DESCO VITAL GEL** is very well tolerated by the skin, because its formulation is based on pure ethanol and contains refatting properties.

RANGE OF APPLICATION

Sports and curative massage, general nursing care, decubitus prophylaxis for the intact skin of bedridden patients as well as all other medical areas demanding a cooling and relaxing effect on muscles.

APPLICATION

Apply a little amount of **DESCO VITAL GEL** and rub it into the skin. It absorbs into the skin quickly.

PRODUCT FEATURES

DESCO VITAL GEL has a pleasant cooling, relaxing and refreshing effect on muscles and skin after exhausting activities.

DESCO VITAL GEL is specially suitable for sports and curative massage as well as general nursing care (e.g. to rub into skin areas, etc.).

Due to its combination of high quality essential oils made from premium medicinal herbs **DESCO VITAL GEL** is circulation enhancing and therefore is perfectly suitable for decubitus prophylaxis for intact skin of bedridden patients.

DESCO VITAL GEL has a pleasant, fresh scent and effectively supports massage treatment when rubbed into the skin due to its stimulating natural oils. It activates the blood flow of the skin and the connective tissue and provides a pleasant feeling of freshness and stimulation.

By reason of its refatting properties **DESCO VITAL GEL** protects the lipid layer of the skin and therefore prevents the skin from drying-out.
